

PRODUCT SPECIFICATIONS

Spiral Pipe

MODULAR METAL FABRICATORS INC.

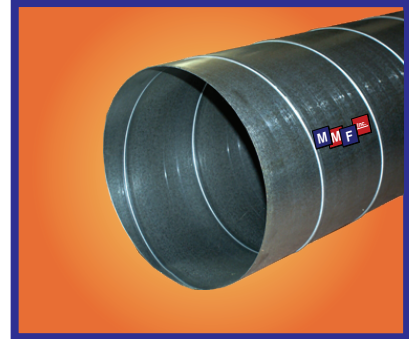

DESCRIPTION

Modular Metal Fabricators Inc. offers a complete line of standard commercial and Industrial Spiral pipe, fittings, and custom fabrications designed to meet all standard specifications. Our products are engineered and built to meet or exceed all SMACNA (Sheet Metal and Contractors National Association) standards.

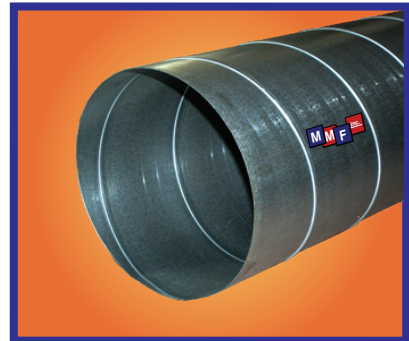

Exposed Spiral duct is attractive and is frequently specified by architects because of its superior aesthetic appeal.

Spiral Pipe is available in 4-inch to 48-inch diameter in ten foot lengths. It is considerably stronger than longitudinal pipe of equivalent gauge. Spiral pipe may be purchased either raw, crimped one end, circle lined, or with an outer metalized, or poly jacketed fiberglass, in R-4.2, R-6, R-8. Available in 26, 24, 22 and 20 gauge.

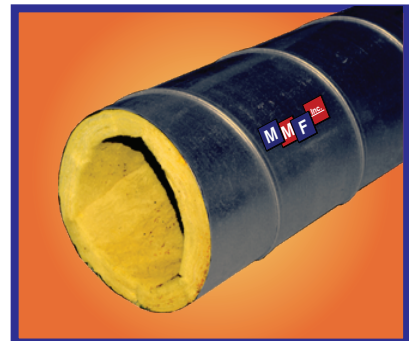

Raw

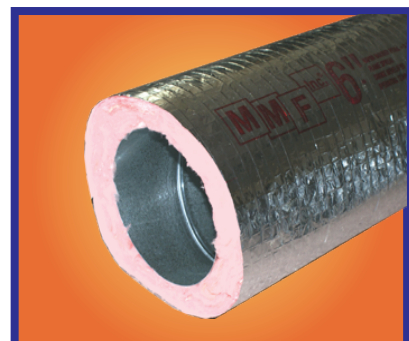

Crimped

Circle Lined

Metalized Jacket

OwensCorning Fiberglass
With Green Guard Certification

(Bare Spiral Pipe Products)

Class O Material: Shall have surface burning characteristics of zero (flame spread/smoke developed)
